THE CLASSIC TOY TRAINS HOW-TO INDEX

This indexes how-to feature stories from 1988-December 2009

American Flyer specific articles

Flyer locomotives Flyer track, rolling stock and accessories

General electronics and wiring

Layout and accessory wiring Train model wiring Power supplies and command-control systems

General repair and restoration

General locomotive and rolling stock projects

Locomotive projects Rolling stock projects

Lionel-specific trains and equipment

Lionel locomotives Lionel-specific rolling stock Lionel-specific accessories

Scenery and layout detailing Scenery techniques

Structures

Layout building: layouts, track, and trackwork

Train room and display projects

AMERICAN FLYER-specific articles

Locomotives

- Reverse units: Flyer reverse unit repair Thump no more, Michael Kolosseus, August 1990, p67
- Smoke units: Flyer smoke unit troubleshooting and repair Smoke unit surgery, Tom Jarcho, May 1994, p112
- Steam locomotive servicing Servicing Flyer's Big Steamers, Rocky Rotella, March 2006, p44
- *Tips: General maintenance* Cleaning American Flyer diesels and passenger cars, John Heck, November 1995, p82
- *Tune-up: Alco PA tune-up* Keeping that Flyer PA-1 flying, Bill Ahrens, Fall 1987, p51
- Tune-up: Flyer no. 303 4-6-2 Pacific Fine-tuning Flyer's 303 Bob Newton, Sept 1995, p104
- Wheel repair: Flyer Hudson Floppy-wheel Flyer fix-up, Sean Fisher, March 1996, p122
- Whistles: Flyer in-tender air-bellows repair Flexible Flyer, Bob Rzasa, October 2000, p66

Flyer track, rolling stock, and accessories

Cleaning American Flyer trains and equipment – Make your American Flyer trains sparkle once more, John Heck, November 1994, p74 Coal loaders: The nos. 752 and 752A loaders – Flyer's towering achievement, Noel V. McGaughey, January 1999, p94 Couplers: Knuckle coupler repair – Repairing American Flyer knuckle couplers, Tom Jarcho, January 1993, p116 *Couplers*: American Flyer coupler conversion (link to knuckle), Joe Deger, May 2007, p73

Signals – Teaching old signals new tricks, Mike Keller, January 2007, p62

Signals: Two-train operation by modifying a Flyer no. 761 semaphore – Just like magic, Jeff Faust, April 1992, p95

Stockyard/car tune-up – American Flyer's no. K771 operating stockyard and car, Bill Ahrens, Spring 1989, p71

Tips: Flyer aluminum passenger cars – Restore American Flyer aluminum cars, Tom Jarcho, August 1991, p60

Track switches: Flyer switches – Fix Flyer track switches, John Reddington, November 2005, p78

Track switches: Installing a reverse section using Flyer remote-control switches – Painless American Flyer Reversing sections – Arthur Hamilton Winter 89, pp. 76

Track switches: Remote-control switches – Tuning up Flyer's remote switches – Bill Ahrens, June 1990, p72

Track switches: Switch motor concealment – Seeing is believing, Michael Kolosseus, February 1992, p62

Flyer reversing sections, Arthur Hamilton, Winter 1989, p76 *Tune-up: Milk car* – American Flyer's milk car meets the mechanic, John Heck, January 1997, p102

Walking brakeman cars – A tale of two trainmen, Jeff Faust, July 1999, p64

LIONEL-SPECIFIC trains and equipment

Lionel locomotives

- Bushing repair Brushplate bushing repair, Mike Hilbert, November 2002, p119
- *Convert a 2-6-4 into a 4-6-2* Turn your Lionel K4 into a true Pacific, Charles E. Beavens, January 1999, p109
- Convert a 2-6-4 into a 4-6-2 Update a postwar engine, Mike Hilbert, May 2005, p64
- *Horns: Diesel horn repair* Repairing Lionel diesel horns, Ray L. Plummer, July 2003, p60
- *Horns: Electronic horn tune-up* Fine-tuning Lionel's electronic horn, Pierre-Andre Rolland, May 2008, p59
- Horns: Horn relay repair Fix a faulty Lionel horn relay, J.R. Watkin, January 2008, p88
- Horns: Horn tune-up (postwar) The reluctant Lionel horn, Joseph Alioto, August 1992, p102
- Marker light replacement A touch of glass, Ray L. Plummer, February 1996 p120
- Minor-to-major restoration of postwar Lionel steam locomotives Restoring Lionel steamers, Ray L. Plummer, December 1991, p99
- Motors: Steam locomotive (postwar) refurbishment Repairing Lionel motors, Ray L. Plummer, April 1991, p90
- Motor repair (universal motors) Repairing universal Lionel motors Ray L. Plummer, September 2002, p66
- *Motor wiring (postwar)* The A-B-C of motor wiring, Ray L. Plummer, September 2004, p52
- Performance improvement: Modern GG1s 3 Improvements for modern GG1, Terry Thompson, January 2002, p98
- Performance improvement Tuning up Lionel's Rock Island Northern, Dennis Brennan, Summer 1988 p66
- Postwar F3 maintenance– Running repairs for Lionel's F3, Jim Weatherford, January 1996, p114
- Postwar J-class 4-8-4 maintenance Servicing Lionel's postwar-style J-class steamers, Rocky Rotella, July 2007, p46
- RailScope battery life (Part 1) A RailScope battery-saver, Don Hansen, Fall 1989, p57
- *RailScope battery life (Part 2)* A RailScope battery-saver, Don Hansen, Feb 1990, p84
- Repairing a bell-ringing switcher Repairing Lionel's 6220 bell-ringing switcher, Ray L. Plummer, December 1997, p114
- Restoration: Lionel 2-8-4 Berkshire (Part 1) Bringing back big Berk, Terry Thompson, February 1997, p52
- *Restoration: Lionel 2-8-4 Berkshire (Part 2)* Bringing back big Berk Part 2, Terry Thompson, March 1997, p59
- *Restoration: Lionel F3 restoration* New life for a tired F3, Stanley W. Trzoniec, September 1998, p92
- *Reverse units: Refurbishment* Repairing Lionel reverse units, Ray L. Plummer, June 1991, p80
- *Reverse unit repair* Repairing Lionel reverse units, Ray L. Plummer, September 2003, p54
- Smoke unit repair/conversion Repairing Lionel's smoke units, Ray L. Plummer, February 2003, p70
- Smoke unit conversion Converting Lionel smoke units, Ray L. Plummer, August 1991, p87
- Smoke unit improvement (modern Lionel) Get smoking, Dick Teal, July 2005, p44
- *Tune-up: MPC and Fundimensions diesel locomotives* Modern problems, Jim Tomczyk, April 1992, p114
- Tune-up: Postwar F3 Running repairs for Lionel's F3s, Jim

Weatherford, January 1996, p114 *Tune-up Postwar no. 50 gang car* – Overhaul Lionel's no. 50 gang car, Jim Weatherford, June 1992, p86 Tune-up: Postwar nos. 675, 2025, and 2035 steam locomotives – Tuning up the Pacific that isn't really a Pacific, Bill Ahrens, Fall 1989, p66 -Tune-up whistles: Repair - Repairing Lionel whistles, Ray L. Plummer, October 1991, p98 Tune-up whistles: Repair – Repair Lionel whistles, Ray L. Plummer, March 2004, p68 *Trucks: Postwar truck maintenance – Dave's bag of tricks, David* Laughridge, May 1995, p 114 Lionel rolling stock Collector shoe and roller replacement – Repair pickup rollers and shoes, Ray L. Plummer, December 2003, p70 *Collector shoe replacement* – Replacing those damage prone collector shoes, Ray L. Plummer, January 2001, p99 *Knuckle couplers repair and maintenance* – Getting a grip, Ray L. Plummer. February 1998, p90 *Minor ding repair (plastic postwar trains)* – Postwar plastic rides again, Terry Thompson, July 1996, p64 Modular motors - Lionel's new motor-drive system, Dick Teal, December 2006, p62 Postwar no. 50 gang car maintenance – Lionel's no. 50 section gang car, Ray L. Plummer, February 2001, p74 Postwar no. 783 Hudson restoration – Terry Thompson, May 2000, p56 Postwar no. 3361 lumber car repair – Repairing Lionel's no. 3361 lumber dump car, Ray L. Plummer, March 1999, p95 Postwar 34XX operating milk car maintenance – Lionel's operating milk car, Bill Ahrens, April 1990, p85 *Postwar no. 3454 automatic merchandise car maintenance* – Get ready to toss some crates, Ray L. Plummer, September 1994, p86 Postwar no. 3656 operating stockcar maintenance – Get moving, Ray L. Plummer, December 1996, p84 Postwar no. 6555 tank car restoration – 6555 makeover – Terry Thompson, March 2000, p103 Postwar barrel cars repair - Roll out the barrels, Ray L. Plummer, December 2001, p72 Postwar searchlight car maintenance – Repair Lionel searchlight cars, Ray L. Plummer, May 1997, p100 Postwar milk car maintenance – Repairing Lionel Milk Cars, Ray L. Plummer, May 1999, p90 Postwar operating boxcar maintenance – Repairing Lionel's operating boxcars, Ray L. Plummer, October 1999, p62 Postwar dump cars repair – Service Lionel's ore dump cars, Ray L. Plummer, January 2001, p98 Postwar helicopter car repair – Repairing Lionel's helicopter and satellite launching cars, Ray L. Plummer, December 1999, p110 *Postwar dump car maintenance – Cleaning Lionel's twin-bin dump car,* **Terry** Thompson, November 1998, p76

- Postwar animated gondola maintenance Servicing Lionel's animated gondola, Ray L. Plummer, Jan 2000, p140
- *Trucks: Prevent derailments* Curing Lionel derailments, Bob Dostal, November 1995, p124

Accessories

Postwar accessory maintenance tips – Lube, oil, and filter, Stan Trzoniec, December 1992, p80 Postwar no. 30 water tower maintenance – Repairing Lionel's no. 30 water tower, Ray L. Plummer, February 2000, p66

- Postwar no. 45/145 operating gateman maintenance Sixty and still swinging, Ray L. Plummer, December 1995, p124
- Postwar no. 97 coal loader maintenance Tune Lionel's no. 97 coal elevator, Ray L. Plummer, March 1993, p103

Postwar no. 155 ringing highway signal improvements – Lemonade from lemons, Tom Rollo, April 1992, p90

Postwar no. 164 log loader maintenance – Riding the log escalator, Ray L. Plummer, July 1994, p12

Postwar no. 165 and 182 magnetic crane repair – Repair Lionel's magnetic crane, Ray L. Plummer, October 1992, p111

Postwar no 313 bascule bridge maintenance – Lionel bridge's falling down? Ray L. Plummer, January 1995, p134

Postwar no. 350 transfer table maintenance – Repairing Lionel's no. 350 transfer table, Ray L. Plummer, July 1997, p78

Postwar no. 350 transfer table extension – Extend a no. 350 transfer table, Joseph B. Besiak, September 2008, p72

- *Postwar no. 364 lumber loader maintenance* Lumber to nowhere, Ray L. Plummer, January 1994, p122
- *Postwar no. 445 switch tower maintenance* Lionel's no. 445 switch tower, Ray L. Plummer, July 2000, p68
- Postwar no. 455 oil derrick repair- repairing Lionel's no. 455 oil derrick, Ray L. Plummer, February 2002, p86
- Postwar no. 456 coal ramp maintenance Revamping Lionel's coal ramp, Ray L. Plummer, May 1996, p90

Postwar no. 464 lumber mill repair – Repairing Lionel's no. 464 lumber mill, Ray L. Plummer, February 2004, p80

- Postwar coaling station maintenance Servicing Lionel's no. 497 coaling station, Ray L. Plummer, September 2001, p88
- Postwar 397 diesel coal loader maintenance Tune-up your Lionel dieselstyle coal loader, Ray L. Plummer, July 1993, p84
- Postwar fueling station repair Lionel's diesel fueling stations, Ray L. Plummer, October 2001, p86
- Postwar no. 356 operating freight station maintenance Servicing Lionel's operating freight station, Ray L. Plummer, December, p70
- Restore a Prewar no. 270 bridge Reviving a Lionel no. 270 bridge, Carl Swanson, February 1999, p77

Track controllers: How the UCS, RCS, and nos. 1019 and 6019 activators work and how to fix them – Lionel's UCS remote control track section, Barry Lewis, September 1993, p100

Track switches: Constant voltage for Lionel 1121/1122 switches – Snap those starter set switches, Ray L. Plummer, May 1993, p104

Track switches: Constant voltage for Lionel 0-27 switches – Fixed voltage for O-27 track switches, Ray L. Plummer, February 2006, p61

Track switches: Lionel 022 switch tune-up – Maintaining Lionel's 022 switches, Bill Ahrens, Fall 1988, p66

Track switches: Lionel 022 switch repair – Repairing Lionel 022 switches, Ray L. Plummer, May 1998, p90

Track switches: Lionel 022 switch repair – Repairing Lionel 022 switches, Robert Sarli, December 2000, p102

Track: Switch machine concealment – Hide Lionel switch machines – John Rusterholz, July 2008, p56

Vibrotor-equipped accessory servicing – Good motor vibrations, Ray L. Plummer, May 2006, p59

ZW (modern) servicing – Serving Lionel's modern ZW controller –

Dick Teal, February 2007, p66

ELECTRONICS and wiring

Layout and accessory wiring

20 wiring tips – 20 fast wiring tips, Neil Besougloff, November 2007, p44

Add layout power meters – Add meters to your layout, Dennis Eichenberg, March 2003, p76

Atlas controllers for vintage accessories – Accessory control, Dennis Eichenberg, November 2000, p58

Barrier strips – Barrier strips keep wiring under control, Neil Besougloff, September 2007, p76

Basics of LED lighting – Basics of LED lighting, September 2008, p62

Bi-directional automated block control – Build a bi-directional automated block and signal control – Steve Garofalo, November 2005, p68

Bus wiring – How to use bus wiring on your layout, Neil Besougloff, December 2006, p82

Banjo signal wiring (Easy Wiring Part 5) – A banjo on your layout, Louis Koumoundouros, November 2002, p123

Block signal wiring (Easy Wiring Part 7) – Block that signal, Louis Koumoundouros, January 2003, p93

Crossing light activation (Easy Wiring Part 3) – Activate your crossing lights, Louis Koumoundouros, September 2002, p85

Crossing gate wiring (Easy Wiring Part 6) – Lights and plenty of action, Louis Koumoundouros, December 2002, p89

Crossing gate wiring (Easy Wiring Part 8) – What should go up should come down, Louis Koumoundouros, February 2003, p87

Crossing gate reliability – Banish weak crossing gates, Dennis Eichenberg, July 2005, p68

Crossing arm (adding lights) – Deluxe signal, Russel Boersma, July 2001, p95

DC operation on an AC layout (convert AC to DC) – DC Trains on an AC layout? – Bill Holly, March 2004, p83

DC relays on AC layouts (convert AC to DC) – How to use DC relays on an AC layout – Neil Besougloff, October 2007, p79

Diodes and rectifiers – Do or diodes, Dennis Eichenberg, November 2001, p82

Dwarf signals – Dwarf signal wiring made easy and removable – Luther Stanton January 2009, p62

- *Dwarf signal wiring (Easy Wiring Part 2)* Heighten the operation of your dwarf signal, Louis Koumoundouros, July 2002, p97
- *Electrical switches* Basics of electrical switches, Dennis Eichenberg, May 2004, p68

Gateman wiring (Easy Wiring Part 10) – Power to the gateman, Louis Koumoundouros, May 2003, p85

How to install a panic button – Hit the panic button, John Flannigan, March 1996, p130

Blocks for control speed – Changing train speeds using block wiring, Neil Besougloff, July 2007, p77

How to make your own controllers – Make your own accessory controllers Part 1, Ray L. Plummer, December 1990, p86

Infrared detectors to prevent wrecks – Two trains, one track, no collisions, Robert H. Walker, October 2007, p74

Insulated rails – Quick insulated rails, Dick Christianson, December 2005, p85

- Insulated rails Make insulated O gauge track sections, John Rusterholz, November 2006, p82
- Insulated rails Reliable accessories start with the track, Ray L. Plummer, April 1990, p73
- *Make a lamp circuit* Uncoupler protector Rick Rostonski, January 2005, p85
- Making your own controller for more complex accessories Make your own accessory controllers Part 2, Ray L. Plummer, February 1991, p107
- Mounting infrared sensors under the layout Invisible accessory control Chuck Brough, July 2004, p82
- *Multimeters* Measure the power of toy trains, Ray L. Plummer, July 2007, p56
- *Operating track section* Add an operating track section anywhere, Peter H. Riddle, July 2008, p42
- *Relay basics* The ABCs of relays, Dennis Eichenberg, March 1999, p78

Relays for reliable crossing light/gate operation – Reliability through relays, Paul Zellinger, January 1996, p136

- Relays for postwar-style block signals Postwar-style block signals operated by relays, Neil Besougloff, February 2007, p81
- Soldering basics How to solder like a pro, Myles J. Marcovitch, February 2002, p60

Semaphore wiring – Overcoming a common semaphore mistake, Neil Besougloff, November 2006, p89

- Semaphore wiring (Easy Wiring Part 1) Get your semaphore to flip, Louis Koumoundouros, May 2002, p93
- *Surface wiring* Surface wiring for Ross switches, Don Grabski, October 2007, p46
- Signal bridge wiring (Easy Wiring Part 9) Light up your signal bridge, Louis Koumoundouros, March 2003, p85
- Signal bridge wiring Wire a more reliable Lionel signal bridge, Dennis Eichenberg, March 2008, p74
- Switch tower wiring (Easy Wiring Part 4) Two guys and a tower, Louis Koumoundouros, October 2002, p83
- Star wiring Star wiring helps MTH's control system, Neil Besougloff, May 2007, p77
- *Tips for layout wiring* Lessons in layout wiring, Don Woodwell, September 2006, p58
- *Troubleshoot wiring problems* Troubleshoot your bad wires Terry Thompson, July 2004, p58
- *Tower control wiring* How to lock out collisions, Kennard T. Wing, May 2006, p72
- *Transformer post use* Old transformers: Which terminals to use, Neil Besougloff, March 2007, p81
- Train detection Train detection for any layout, Robert H. Walker, January 2008, p82

Two-track crossing – Wire a two-track O gauge crossing, Neil Besougloff, November 2007, p113

Use a rotary knob to control accessories – Rotary controllers, Robert Malcolm, February 1998, p102

Use a rotary knob to control accessories – Dial up an MTH accessory, Dennis Eichenberg, September 2003, p50

Using electronics and lights at crossings – Realistic crossing systems, Don Woodwell, May 2002, p78,

Warning lights for sidings – Heads up! Ray L. Plummer, February 2002, p89

Wire – All about wires, Dennis Eichenberg, October 2002, p76 *Wiring track-activated signals* – Wiring a track-activated signal the lowtech way, Allan Burroughs, September 2008, p60

- Wiring gates for bi-directional operation 2 way crossing, Jim Lomison, November 2003, p88
- *Wiring handbook* Handbook on layout wiring, Ray L. Plummer, September 2007, p37

Wiring for two-train operation – Two-train wiring, Neil Besougloff, October 2002, p50. (sidebar to "Build a Halloween Layout," Jim Riccioli, October 2002, p48)

Train model wiring

Constant voltage lights – Bright idea, Don Woodwell, January 2000, p144

Directional lighting – Add directional lighting to postwar locomotives, Bob Nelson, July 2003, p83

Directional lighting – Directional lighting for your MTH subway set, Philip A. Greenberg, February 2007, p70

- MTH battery charger Make an MTH battery charger, Paul Pullen, September 2007, p60
- Prevent switch stalls Switching without stalling, Dick Teal, March 2005, p62
- Prevent switch stalls Short locomotives and long switches, Peter H. Riddle, September 2008, p58
- Prevent switch stalls on a handcar Halt handcar hang-ups, Joseph Rampolla, October 2005, p68
- Prevent switch stall on a Beep Does your Beep stall?, Banjamin Nigro, March 2005, p63

Power supplies and command control

- Basic terms for toy train power Volts and amperes and watts, oh my!, Dennis Eichenberg, May 1997, p106
- *Command-control basics* Command control basics, Neil Besougloff, May 2002, p52

Command control for prewar trains – From prewar to the digital age – Neil Besougloff, January 2007, p66

Command control for postwar locomotives – Command control for postwar classics – Phil Klopp, January 1998, p86

Lionel Legacy system – Lionel Legacy on your layout, Kent Johnson, July 2008, p36

Lionel Legacy accessory operation – Wire an MTH Accessory for use with Lionel Legacy, Kent Johnson, March 2009, p46

MTH's DCS system – DCS delivers, Neil Besougloff, September 2002, p44

MTH DCS wiring (Part 1) – DCS wiring tips, Jamie Haslip, July 2005, p62

MTH DCS wiring (Part 2) – More DCS wiring tips, Jamie Haslip,

September 2005, p62

ProtoSound 1 conversion to TMCC – Meet the equalizer, Dick Teal, January 2004, p83

- ProtoSound to ProtoSound 2.0 upgrade Command upgrade, Dick Teal, September 2004, p66
- *Phasing older transformers* How to phase a pair of older transformers – Neil Besougloff, October 2006, p75

Reed switches – Reed-and-relay circuitry, Joseph Rampolla, November 2004, p80

- Remote operation for Teledyne couplers Remote operation for electrocouplers, Ray L. Plummer, October 2007, p59
- Sound activation bell improvement Build a better bell button, Dennis Eichenberg, October 2006, p66

TMCC and DCS on one layout – How to operate Lionel and MTH command control on the same layout, Peter H. Riddle, December 2007, p86

- *TMCC reception* Improve TMCC reception, Dick Teal, November 2004, p62
- *TMCC for a dummy diesel* Command control for dummy diesels, Dick Teal, May 2003, p62
- *TMCC for rolling stock* TMCC rolling stock, Dick Teal, October 2003, p56

TMCC connections – How to connect TMCC to your layout, Neil Besougloff, September 2006, p72

TMCC and DCS on one layout – TMCC and DCS on the same layout – Steve Garofalo, January 2004, p62

Toggles and two-train control – Two-train control using toggle switches, Neil Besougloff, January 2007, p83

- *Transformers (multiples in use)* Big power for a small price, Ray L. Plummer, October 1990, p75
- *Transformer safety* (postwar) Postwar power basics, Ray L. Plummer, October 2003, p48
- *Transformers (modern)* Toy train transformers today Bob Keller, February 2008, p48
- *Transformer overview* The powers that be, George Foose, January 1996, p96

Transformer basics – Toy train tronics: The transformer, Dennis Eichenberg, January 1997, p92

Transformer selection – Picking your power pack, Terry Thompson, Jan 1999, p60

GENERAL repair and restoration

Dry-transfer lettering for prewar trains – Here's the rub, Peter H. Riddle, February 1996, p96

- Make a wheel puller for postwar trains Making a wheel puller, Will Grovender, January 2000, p150
- MTH battery replacement Replacing MTH batteries, Jim Riccioli, September 2002, p83
- Restoring prewar trains Do it yourself restorations, Ray L. Plummer, March 2001, p50
- Restoring an acid-damaged locomotive body A clean start, Mike Hilbert, December 2003, p92

Restoring a prewar M10000 – Coca-Cola streamliner, Mike Hilbert, November 2003, p66

Restoring prewar trains – New life for prewar trains, Ira Goldfine, September 2005, p58

Restoring a prewar locomotive – Turn that rusted hulk into the prize of your collection Peter H. Riddle, Summer 1988, p45

Restoring a prewar locomotive – Royal restoration, Mike Hilbert, October 1999, p82

Restoring a Royal Blue – Making a special S gauge Royal Blue, Joe Deger, October 2008, p64

Repainting postwar Marx diesels – Teach an old Marx new tricks, Darryl White, March 1996, p84

Sandblasting to remove paint (postwar plastic trains) – Having a blast, Terry Thompson, November 1999, p108

Sandblasting (prewar trains) – Sandblast your way to a superb restoration, Robert Izzo, July 2007, p60

Tips for repairing broken plastic supports – Plastic surgery. Bernard Stekoll, July 1995, p107

Track: Refurbishing – recycling old Lionel track, Ray Greulich, September 2004, p46

Track switches: Restore prewar switches – Back from the edge, Gil Reid, January 2006, p89

GENERAL locomotive & rolling stock projects

Locomotive projects

- Add a backup light to a steam tender Light duty, Don Grabski, January 2001, p80
- Add detail to diesels Better-looking diesels, Kent Johnson, January 2004, p56

Custom-modifications – Stretch a postwar locomotive, Nick Pulskamp, November 2009, p72

Custom-creating trains – Home-built hybrids, Ralph Calvino, November 2006, p58

- *Custom paint a locomotive* 5 steps to custom-painted engines, Neil Besougloff, December 1991, p94
- Drawbar guide repair Repairing drawbar guides, Mike Hilbert, May 2001, p87

Fix broken tethers – How to fix broken tethers, Dick Teal, February 2005, p72

Fix damage to a postwar locomotive – Mend a bent Berk, John Rothwell, November 2005, p66

Installing clear plastic panes in the windows of early Weaver Alco RS-3s – Put "glass" in your Weaver RS-3 windows, David Laughridge, Spring 1989, p77

Install an outside third rail – Moving the third rail outside, Jim Riccioli, May 2005, p76

Installing battery-operated lights on a Large scale locomotive – Light up the night, Ken Estes, Summer 1989, p52

Installing LED headlights – Installing LED headlights, Carl Swanson, March 2009, p48

Installing constant voltage lighting in a Weaver E8 diesel (applicable to other models) – Light up Weaver's beautiful E8, Don Pizmoht, March 1994, p114

- Improving the smoke unit output of a Marx no. 666 steam locomotive Make 'em smoke, Guy Nichols, February 1992, p89
- *Motorize a Thomas the Tank Engine whistle* Thomas for \$10, John Halajko, December 2004, p86
- Motorize a rail Zeppelin Gonna fly now, Philip K. Denslow, May 2006, p46
- Smoother motorized unit operation Make a smoother running rail truck, Joseph Rampolla, March 2007, p64
- *Tips: Pre-holiday inspection* 10 tune-up tips, Ray L. Plummer, November 1993, p114
- *Traction tire gluing* Glue on traction tires, Dick Teal, November 2003, p91
- *Traction tire replacement* Steamed at traction tires, Jim Riccioli, July 2002, p95
- Wiring together two single motor locomotives Double your power, Ray L. Plummer, September 2000, p95

ROLLING STOCK PROJECTS

Rolling stock projects

- Adding operated lights to a Lionel Large scale caboose (can apply to other scales) Improved lighting inside and out, Gerald Stebbins, Winter 1989, p71
- Adding detail points such as lights, chains, and antennas to stock Lionel cabooses Detail a Lionel caboose, Steven R. Heath, December 1990, p107
- Adding lights to an observation car Light up the tail end of your train, Gordon Odegard, Summer 1988, p63
- Adding and end-of train device Add an MTH end-of-train device to a modern K-Line freight car, Kent Johnson November 2009, p82
- *Custom-decorating rolling stock:* Create an identity for your railroad, Fred M. Dole, May 2009, p58

Flickering lights (Standard gauge)– Fix flickering passenger car lights, Michael Connor, January 2006, p91

How to customize paint/decorate a work train – Customize a work train, Joe Lesser, February 1997, p68

How to paint and detail commercial vehicles to create a diverse vehicle fleet – Auto body experience, Lee Vande Visse, November 1995, p98

- How to modify a flatcar to stand in for a work caboose Build an O gauge backwoods work caboose, Bob Johnston, July 1994, p90
- Install a working drumhead Lighting up the varnish, Ken Estes, May 1996, p102

Installing markers in a 2400-series observation car (applies to other brands) – Marker lamps for your Hillside cars, Chuck Booth, October 1991, p86

- *Kitbashing a motorized work car for scale running* A traction work car in G scale, Russell Jennings, Fall 1988, p63
- Make an O gauge track cleaner Build an O gauge track cleaner, Peter Corrigan, February 2003, p80

- Make a Standard gauge track cleaner Build a Standard gauge track cleaner, E.A. DeZubay, February 2003, p82
- *Make a Christmas train* Create your own Christmas train, Philip K. Denslow, December 2006, p77
- *Make a laser-pointer car* Laser disintegrator car, Bruce J. Brown, March 2000, p90
- Make a long gondola out of two short MPC gondolas A long Lackawanna gondola, Steven Heath, March 1993, p91
- Make a short gondola out of a larger gondola Shorty gondolas, Steve Bieler, November 2000, p94
- Making a large scale melon car A slice of life, Jack Gurner, November 1995, p94
- Make a Chanukah train Make a children's Chanukah train, Bruce Brown, January 2001, p77
- Making a military train My Army train, Robert Kern, September 2000, p91
- *Make an operating helicopter car* Make your own operating helicopter car, Rick Bigliardi, December 2007, p82

SCENERY and layout detailing

General techniques

Accessory base concealment – Tricks to hide ugly plastic accessory bases, Peter H. Riddle, December 2005, p70

Access hatches – How to hide access hatches, Peter H. Riddle, November 2005, p70

Backdrop painting – How to expand your horizons, Ray Stuber, December 2004, p62

- *Backdrop painting* Beautiful backdrops in three easy steps, Fred M. Dole, March 2009, p68
- Build an elevated train shed Build an elevated train shed, Eric G. Lewis, November 2003, p60

Benchwork: Semi-portable benchwork for compact operation in large areas – Space saver, Stanley Trzoniec, February 1996, p88

Benchwork for tight spaces – Space Saver, Stan Trzoniec, February 1996, p88

Build a welder scene – Welder done, Don Woodwell, October 2002, p81

Billboard frames – Billboard frames in a snap – Herbert H. Grassel – July 2000, p70

Christmas tree skirt – Ring in the holidays, Mark Edwards, December 2002, p50

- City scenery Simple city scenery, Peter H. Riddle, May 2005, p68
- City scenery 28 layout tips, Roger Carp, February 2007, p40
- *City scenery* Better lawns for your layout, Peter H. Riddle, November 2009, p58
- City and town scenery Modeling town and city blocks, Victor Roseman, May 2008, p46
- *City and town scenery* Build a main street for your railroad, V. S. Roseman, December 2008, p74
- *Ceiling tile scenery* 11 steps for ceiling tile scenery, Jim Ricciolli, March 2005, p48

Circus mini-scenes – Build a circus mini scene, Don Woodwell, October 2003, p72

Die-cast vehicles – Rules for the road, Neil Besougloff, September 2001, p54

Die-cast vehicles - How to paint easy O gauge vehicle accents, Bill

Spayd, December 2008, p72 Disappearing train layout – Build Lionel's disappearing layout, Roger Snow – Let it snow, Bob Keller, December 2005, p56 Carp, November 2001, p91 Snow – CTT Project Layout: The Cascade & Timber Trail Ry. Bonus, Kent *Forced perspective* – Forced perspective, Neil Besougloff, September 2001, p76 Gorge – Add a gorge to your layout, Stanley W. Trzoniec, May 2003, p80 Grade crossings – Build a realistic grade crossing, Jim Bunte, October 1992, p86 Grade crossings – Make a realistic roadway crossing Dennis Brennan – January 2007, p56 Locomotive service area – A home for your locomotives, Joe Lesser, November 1998, p60 Locomotive service area – Build a locomotive servicing terminal, Norm Charbonneau, November 2009, p48 *Make junk cars from foil* – Fender bending, Darryl White, October 2001, p89 Make a hidden corner – Build a hidden corner, Stan Trzoniec, February 2005, p56 *Make trees with cable* – Bullet-proof trees, Bruce Carter, December 1995, p104 *Make spotlights mated with structure supports* – Let there be light, Eric Sayer Peterson, November 1995, p138 Make a train duster - Tickle your train's fancy with the auto-duster, Ron Hull, May 1995, p94 Magnetic signs – Adding magnetic signs, Jim Saxman, January 2008, p92 *Outdoor lamps in any scale* – Simple streetlights, Kenneth Estes, March 1995, p114 Overpass – Build a modern highway overpass, Kent Johnson, October 2007, p48 Painting layout figures – Painted ladies and gentlemen too, Eric Sayer Peterson, May 1994, p98 Repainting and re-decaling hoppers – Offset-side hoppers for your O gauge layout, Al Hoffman, July 1996 p104 *Repainting prewar Lionel houses* – House painting, Joe Lissi, September 1999, p99 *Rocks (from Styrofoam)* – Quick and easy rock formations, Roger Carlson, Aug 1990, p38 *Rock molds* – Play-Doh scenery, Terry Thompson, March 2002, p70 Rocks: Easy rocks with grout, Jason Littmann, February 2009, p68 Re-creating prewar shrubs – Re-creating Lionel's scenic plots, Joe Lissi, September 1999, p96 Scenery project: Make a surplus yard – Surplus city, James G. Gibson II, September 2007, p70 Scenery project: A junkyard – Make a junkyard scene, David Alvar, September 2009, p66 Scenery project: Details – Quick scenery details, John Souhrada, September 2004, p50 Scenery project: Details – Quick scenery details, John Souhrada, January 2006, p86, Scenery project: Small scenes – Small scenes made simple, Stan Trzoniec, January 2001, p82 Scenery techniques – 1-2-3 scenery, Kent Johnson, November 2006,

Johnson, December 2009, p46 *Texture* – East multi-textured scenery, William DiMenna, May 2009, p70 *Trestle* – Make a tall trestle the fast way – Stan Trzoniec, July 2009, p36 *Telephone poles* – Make utility poles, Edward Weintraut, December 2004, p89 *Trestle* – Build a believable trestle, Dick Christianson, December 1992, p111 *Tunnels* – Build your first tunnel, Stanley Trzoniec, November 1994, p133 Tips: Christmas scenery – Christmas in Model Builder, John Grams, January 2001, p94 Tips – 20 easy scenery tips, Kent Johnson, November 2007, p78 *Track appearance* – Four steps to better looking track, Dennis Brennan, January 2005, p66 *Track appearance* – How to make sectional track look fabulous, Kent Johnson, November 2008, p50 *Track appearance* – Tubular tips, Stan Trzoniec, March 2001, p76 Track ballasting – Better ballasting, Ray Stuber, December 2003, p88 Track ballasting – From the ground up, Josef Lesser, October 1990, p44 Track ballasting – Track ballasting in 6 simple steps, Peter H. Riddle, May 2009, p66 *Track ballast from carpet strips* – Berber ballast, Ken Deming, January 2001, p100 Track switches - Build a spring-loaded track switch, Peter H. Riddle, September 2006, p71 *Water* – Just add water, Kent Johnson, March 2007, p42 Water – Water, water everywhere, Roger Carlson, January 1995, p114 Water – It rained last night, Dave Jacobs, March 2006, p70 Water (using Plexiglass) – Build a lake from the bottom up, Josef Lesser, May 1993, p60 Structure building and detailing Add smoke and lights to a station – Got a light?, Lee Vande Visse, July 1999, p84 Add adobe-style roofing – From Plasticville to Adobeville, Dana Lippiatt-Wood, March 2003, p54 Add details to a commercial structure kit – Turning a simple kit into a masterpiece, Lee Vande Visse, May 1997, p42 Adding height to structures – Raise the roof, Joel Fugazzotto, November 2006, p72 *City structures (large)* – Making big city structures, Ray Stuber, May 2008, p48

p46

Christmas tree stand (for Standard gauge trains) – A classic Christmas tree, Scott T Hanson, December 1997, p66

Corrugated structures (applies to other scales) – O scale corrugated-metal engine house, Troy La Croix, Spring 1989, p66

Custom billboards – Create your own billboards, Joe Farace, May 2008, p56

- *Customize a structure* Upgrading grading a RailKing building, Bob Keller, March 2009, p44
- Detail pieces Finishing touches, Bob Keller, November 2008, p66 Detail kit structures – A factory with flair, Stephen M. Mayer, February 2000, p107
- *Drive-in theater* DVD theater, Philip Whitmoyer, September 2006, p46
- Drive-in theater How to build a drive-in theater, Peter H. Riddle, December 2008, p52
- Engine house (scratchbuilding) A place to call their own, Leroy J. Politsch, February 1996, p104
- *Factory (large)* Lionel in Plasticville, Richard Van de Keift, October 2000, p92
- *Factory* Build a factory for your layout, Art Curren, July 2005, p46
- *Figures on a layout* 9 ways to populate your layout, Peter H. Riddle, May 2008, p52
- Hopper unloading scene Another way to unload a hopper, J. Wayne Beachy, February 2005, p84
- Industry from a coal station kit A new industry from a familiar kit, Art Curren, May 1999, p96
- *Oil depot* Scratchbuild an oil depot, Eric G. Lewis, March 1998, p102
- *Oil distributorship* Big tips for big kits, Russ Reinberg, February 1992 p102 (*the tips are working with Large scale structure kits*)
- *Oil pumping scene* Build an oil pumping scene, Don Woodwell, November 2004, p90
- *Oil storage industry* Build a small town oil depot, Douglass Woodward, March 1995, p90
- Plasticville: Detail a switch tower Detail a Plasticville switch tower, Dennis Brennan, January 2006, p70
- Plasticville: Detail Cape Cod houses Detailing Plasticville Cape Cod houses, Victor Roseman, July 2006, p50
- *Plasticville: Detailing telephone poles* Enhancing Plasticville telephone poles, Dennis Brennan, July 2006, p54
- Painting plastic structures 9 paint tips for plastic buildings, Jene Hughes, July 2004, p72
- Plasticville: Repainting Plasticville meets Department 56, Chris P. Matthy, December 2003, p95
- *Plasticville: Painting and weathering* Paint and weather Plasticville hobo shacks, Dennis Brennan, July 2006, p48
- Plasticville: Coal tower Detailing a Plasticville coal tower, Victor Roseman, March 2004, p50
- *Plasticville: Make a large building with two kits* Doctoring up the Plasticville hospital, Art Curren, March 1996, p62
- Plasticville: Make a large station with two kits A grander union station, Richard Van de Kieft, May 2004, p54
- Power station project Make an operating power station, Norm Brainard, October 2004, p74
- *Power generator project* Generate a scene, Don Woodwell, September 2005, p73

Station project (Hoboken station) – Build a hardboard Hoboken, William

Hildebrand, October 2005, p60 *Station project (large)* – Merge two banks into one grand station, Richard Van de Kieft, May 2006, p48

- Station project Your first scratch building project, Marty McGuirk, July 1995, p84
- Station project Raising Columbia station, Lee Vande Visse July 1996, p72
- Unique structure projects (four) Kitbashed quarter, Jeff Madden, October 2001, p75
- Vintage accessories on a modern layout Add vintage accessories to your modern layout, Stanley Trzoniec, July 2008, p58
- *Wig-wag crossing signal project* Build an operating wig-wag signal, Scott Melton, January 1994, p102
- Yard office A quick and easy yardmaster's office, Douglass Woodward, March 1997, p84
