Garden Railways. 1998 Index

This index was compiled to assist the reader in finding information in the 1998 issues of *Garden Railways* Magazine. It covers six issues, from February 1998 through December 1998. There are hundreds of entries, cross-referenced by article title, author's name, and subject.

Using the Index

All categories are delineated as follows:

The AUTHOR'S LAST NAME is in capital letters. Below the author's name is a listing of his/her article(s).

The **Article titles** are all in boldface type and are listed both under the author's name and alphabetically within the index.

The Subject listings are all entered in plain type and may include subcategories.

At the end of each listing you will find numbers, such as 15/3 24. The first number is the volume, the number after the slash is the issue number, and the last number is the page on which the article begins. The above example would translate as volume 15 (1998), number 3 (June), page 24.

The Product Review Index

Also included is a supplemental index of all products reviewed in *GR* during 1998. It is cross-referenced by the type of product and the manufacturer. The **manufacturer's name** is in boldface type, and the products are listed in plain type. Volume and issue numbers follow each entry.
