Garden RAILWAYS®

2008 Index

February (25/1)

Aprii (25/2)

June (25/3)

August (25/4)

October (25/5)

December (25/6)

This index was compiled to assist the reader in finding information in the 2008 issues of *Garden Railways* magazine. It covers six issues, from February 2008 through December 2008. There are hundreds of entries, cross-referenced by article title, author's name, and subject.

Using the index

All categories are delineated as follows:

- The AUTHOR'S NAME is in capital letters. Below the author's name is a listing of his/her article(s).
- The Article titles are all in boldface type and are listed both under the author's name and alphabetically within the index.
- The Subject listings are all entered in plain type and may include subcategories.

At the end of each listing you will find numbers, such as 25/3 36. The first number is the volume; the number after the slash is the issue number; and the last number is the page on which the article begins. The above example would translate as volume 25 (2008), number 3 (June), page 36.

The product-review index

Also included is a supplemental index of all products reviewed in *GR* during 2008. It is cross-referenced by the type of product and the manufacturer. The manufacturer's name is in **boldface type**, and the products are in plain type. Volume and issue numbers follow each entry.
