

**Using the index:** Most of the feature material has been indexed at least three ways – once by the title, again under the author's last name, and finally by subject, usually falling under at least one of the MR subject categories.

An asterisk (\*) preceding an entry indicates a feature by its title.

A capital letter P preceding the page number indicates an article in the "Workshop tips: Servicing steam" booklet, bound into the center of the October 2007 issue.

**MR subject categories:**
